1. EXECUTIVE SUMMARY

What is \$ONETAP?

\$ONETAP is a community-driven cryptocurrency project built on the Base network, combining gaming culture with decentralized finance. We create an ecosystem where meme culture meets real utility through innovative tap-to-earn mechanics and NFT systems.

The Problem We Solve

Traditional memecoins lack sustainable engagement mechanisms. Most projects rely solely on hype without delivering lasting value to their communities.

\$ONETAP addresses this by creating multiple engagement touchpoints: interactive games, NFT drops, community rewards, and transparent governance.

Our Solution

- **Tap-to-Earn Game:** Engaging click-based game with XP and rank systems
- **NFT Drop Roulette:** Unique collectibles based on player ranks
- **Zero Tax Trading:** 0% buy/sell fees for frictionless trading
- **Locked Liquidity:** 85% LP locked for 6 months minimum
- **Community Governance:** DAO voting for major decisions
